

YOUR NAME Partnering with Babylon Micro-Farms to Provide Healthy, Sustainable, and Innovatively Grown Food Options On-Site .

RICHMOND, VA (**DATE**) - [Babylon Micro-Farms](#), the industry-leading company providing an all-in-one, all year round indoor farming experience, is excited to announce their partnership with **YOUR NAME**, a **DESCRIPTION OF YOUR COMPANY**.

YOUR NAME will be installing **X#** Babylon Micro-Farms at each location, serving over **XYZ** students/residents/patients/clients/ etc... in total. Each **location** will use Babylon Micro-Farms to increase sustainable food sourcing and engagement while creating unique culinary experiences. Engagement will take many forms such as activities where **share how you will use your farm or planned activities**. Babylon's on-site indoor farm fits with **YOUR NAME's** mission to provide sustainable, clean, and fresh food to the betterment, health and longevity of students/residents/patients/clients/ etc... and the earth.

INSERT QUOTE

The partnership bodes well for Babylon Micro-Farms and **YOUR NAME** as they share the common initiative of sustainability and providing locally sourced options to the people they serve. **YOUR NAME** chose Babylon Micro-Farms as a partner as they are experienced in providing smart indoor farming units across the United States with locally sourced food through Babylon Micro-Farms that are installed on many **Senior Living/Campus/Healthcare/Resorts/Hotels/Corporate Offices etc..**

*We are very excited to partner with Babylon to bring fresh grown herbs, microgreens, and vegetables to **YOUR NAME** . Being able to watch these items grow from seedlings up until they're ready to be harvested and eaten, gives people an elegant visual of the whole process. We are excited to see this program grow and thrive states*

*- Jane Smith- **TITLE**, Name of Place*

Built on the basis of sustainability, Babylon Micro-Farms continues to bring the benefits of sustainable hydroponic farming to more and more people every day. Babylon Micro-Farms is able to achieve their goal through their on-site farming service, making farming simple for anyone. Babylon is the most affordable, efficient, and advanced vertical farming platform available, remotely managed through the cloud with unparalleled customer service.

"We are proud to have partners such as **YOUR NAME** who share the same vision as us, and we are working towards a healthier future for how food is grown" shares Babylon Micro-Farms CEO, Alexander Olesen.
