

## Babylon Micro-Farms is changing the future of farming with its environmentally friendly, remotely-managed, hydroponic indoor farms.

We serve commercial dining operators nationwide, from universities to hospitals to senior living communities, providing them with access to 45+ crops, top-notch training/support, and a mobile app to help them grow fresh, nutritious produce on-site. Located in Richmond, VA, the UL approved farms are produced in the United States in a HACCP certified facility.

*Babylon Micro-Farms are the easiest to use micro-farms in the world.*

### Corporate Dining

Having an edge in business means having excellent benefits and culture. Utilizing the world's easiest to use hydroponic Micro-Farm™ from Babylon means you can hire talented employees and keep them with innovative culinary incentives. Biophilic design has been found to support cognitive function, physical health, and psychological well-being.

### Senior Living + Healthcare

Our senior living and healthcare partners love how Babylon Micro-Farms™ helps them communicate their commitment to a more sustainable future. Residents love the healthy, nutritious produce, as well as the engagement and educational elements.

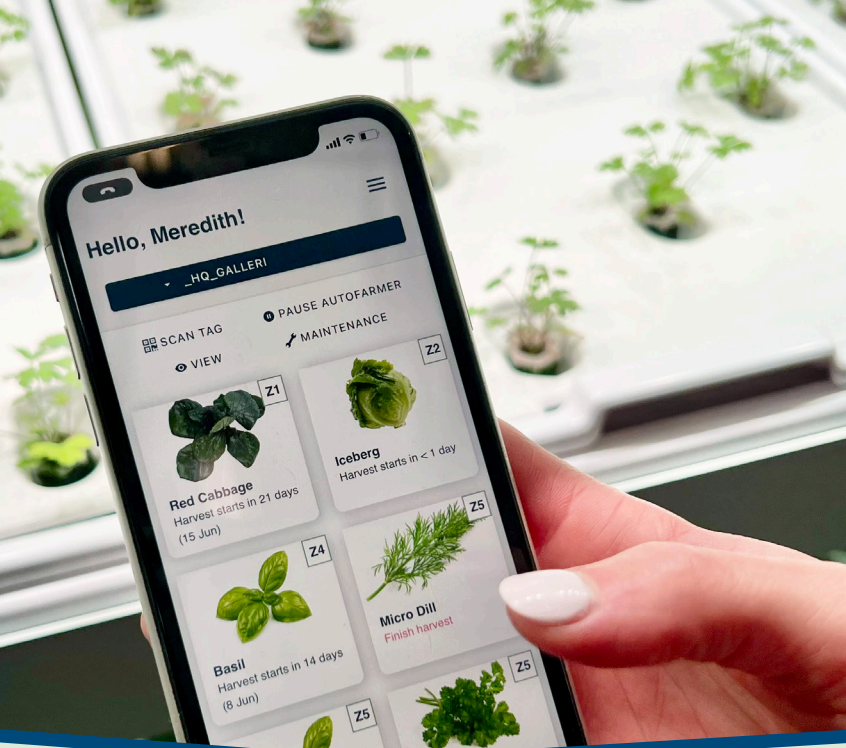

### Student Dining

Students are in tune with the benefits of clean, healthy eating. Babylon's all-in-one Micro-Farm™ provides students with an educational, culinary, scientific, sustainable, and pesticide-free experience. Schools choose Babylon to encourage healthy eating and drive engagement, retention, as well as improve enrollment.

### Event Venues + Hospitality

Chefs at the finest resorts and hotels want bold flavors & unparalleled freshness no matter the season. Our flexible growing subscription can adapt to your menu. Culinary masterpieces can be designed with customized produce items based on nutritional or flavor profiles.

## Guided Growing™ App

Provides you all the guidance you need to be a successful indoor Farmer. From germination & crop care to harvesting & support, it has your back every step of the way.

## Automated Growing

Proprietary technology ensures plants receive the optimal amount of light, water and nutrients.

## Remotely Managed and App Alerts

Sensors and cameras continuously relay data about the farm, allowing Babylon to monitor performance and make adjustments from afar. Babylon's Guided Growing app alerts you when crops are ready for transplant or harvest.

## Personalized Support

Dedicated customer experience manager, online Help Center, and how-to videos to ensure you have the help you need, when you need it.

**Babylon's Micro-Farms help create healthier communities & a cleaner planet.**

### Compared To Traditional Methods, Each Farm Uses:

**96%** Less Water

**65%** Less Fertilizer

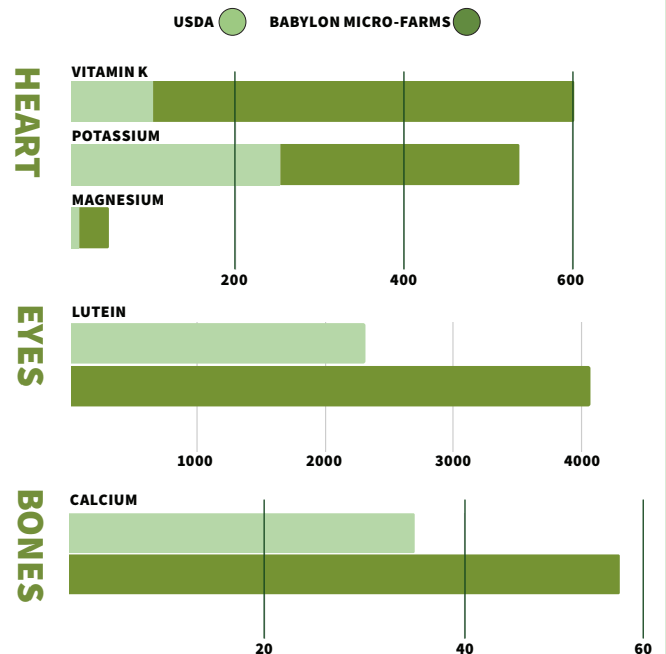

**Zero** Pesticides

**Zero** Miles of Transport

Every Micro-Farm produces up to **4,160** servings of flavorful and nutritious food from 40 varieties of leafy greens, herbs, microgreens, and edible flowers... all year long.

**Babylon's Micro-Farms produce is pesticide-free and ultra-nutritious.**
